

Coatings

HSI's painting and coating specialists provide high quality surface protection for fabricated equipment.

All work is conducted in strict compliance with customer specifications and can be certified to meet the highest demand tolerances of SSPC and NACE.

Indoor painting facilities are used during inclement weather to control the application environment and prevent scheduling delays.

HSI quality assurance personnel, procedures and controls are an integral part of the manufacturing process. At HSI we build quality into every product we manufacture.
